Addendum To Bid #769

Asphalt Milling

Gentlemen and Ladies:

Included herein is additional information and clarification for the above referenced invitation for bids. Please consider all of this information when preparing your bid.

1. On the pricing sheet regarding the mobilization charges it states the following: "separate mobilization charges shall not be charged for a single notice to proceed with multiple streets". We are unable to determine if the roads are going to allow movement between or if we are going to be given multiple streets in a notice to proceed. A road could be in Brooks and then in Tyrone. It would be in the best interest of the county to address this in order to get competitive prices so that we as contractors do not have to determine how to cope with ambiguity.

ANSWER: Mobilization charges will be allowed in the following circumstances only. An initial mobilization charge will be allowed per notice to proceed to get the equipment to the job site. If the roads to be milled are within walking distance, no additional mobilization charge will be allowed. Walking distance is defined as .5 (one half) miles or less between roads. However, if there is a road to be milled that is more than walking distance of one half mile, an additional mobilization charge will be allowed per notice to proceed. After that initial mobilization charge, the number of mobilization charges per notice to proceed will be capped at two.

Please note that the amount of the mobilization charge stated in your bid will be a factor in the award.
